1. **Deck of Cards** - You can take out the face cards or assign them values. Players draw a card and add it to their running total trying to be the first to reach 100 without going over.
2. **War** - With a deck of cards you pull out two cards each and add them the person with the highest number gets the cards. The player with the most cards at the end wins.
3. **Place Value** - With a deck of cards use 1-9. Each person is to draw 3 cards and try to make the largest number using those 3 cards and tell the place value of each. The person with the largest number wins that round and you keep track of how many rounds each person wins.
4. **Money** - Money is an important skill. Pull out some change and talk about the amount of the coins and add up different amounts.
5. **Money Dash** - Use a dice and when you roll it add up the numbers as money until you get \$1
